

ONYRO EVENT

Cocktails **Receptions**
Parties **Events** **Galas**

ONYRO is a robot serving drinks to guests seated or standing without any human intervention

Driven by waiters, he helps them during service and table clearing

TABLE SERVICE

A waiter calls ONYRO by raising his arm while looking in his direction;

The robot detects this gesture and goes to him;

The waiter chooses drinks and a table number or a guest place on the robot screen;

ONYRO goes to his corner where he has dedicated utensils (refrigerator, glasses, straws, etc.) or to the bar according to the order;

ONYRO prepares the order and goes to the table;

He says a polite sentence and places the drinks in front of the guest.

COCKTAIL MODE

ONYRO wanders among the guests and offers drinks already placed on its trays, inviting people to take them.

ONYRO wanders among the guests and offers to rid people of their empty glasses.

AUTONOMOUS

ONYRO is entirely self-managed:

Autonomous Service, Recharge, Decisions.

8-hour operating time without recharge.

UNIQUE IN THE WORLD

ONYRO is the very first robot of this type.

Multi-awarded, he is the fruit of the French company [ipsum tek](#).

Based upon a unique concept: ONYRO uses its own utensils (glasses, fridge, etc.).

EVOLUTIONARY

Software upgrades will enable other functions such as:

- Autonomous service of more products (bread, cutlery, dishes, etc.)
- Guest call by raising the arm and taking verbal orders.
- Table settings up
- Regular rounds of attention
- etc.

ADVANTAGES

One or more ONYRO robots can take care of almost the entire beverage service at a reception, whether guests are seated or standing. From soda to cocktail to glass of wine.

PROFITABILITY

- An extra who works 24/7 without days off
- More business thanks to the attractiveness effect
- Low cost

ATTRACTION FOR GUESTS

- Image of modernity
- Expectations of the new generation
- Free advertising from Media

MORE EFFICIENT STAFF

- The robot carries out tasks of little added value
- An essential tool when you have to serve everyone simultaneously

PRICES

(EXCLUDING TAX)

RENTAL

Down payment of €6,000 then €990/month

Included in the price:

Shipping

Training for event installation

Support / Maintenance

Minimum contract: 1 year

Software update: additional cost of €150 / month

SPECIFICATIONS

- 540mm (D) x 1450mm (H). 60Kg
- Maximum speed 0.8m/s
- Autonomy: 8H / Charge 2H
- Anti-tilt staircase
- Automatic return to charging station
- Quiet operation
- Works in areas without wifi
- Installation for an event: approx. 2H to 3H

FUNCTIONS

SEATED SERVICE

ONYRO serves autonomously traditional drinks (sodas, beers, etc.), wines and champagnes to the guest table.

COLLABORATIVE MODE

In tandem with the bar, ONYRO serves percolator coffees, draft beers and cocktails.

COCKTAIL SERVICE

ONYRO wanders among standing guests and propose drinks and also to rid people from their empty glasses.

TABLE CLEARING

The staff puts dirty plates and glasses on a dedicated tray and sends the robot to the kitchen.

Note 1: All these modes are configurable

Note 2: Acting as a fleet of robots, each can be assigned to a specific mode
